

WALK THROUGH METAL DETECTOR

Inspecta 45Z

TUWAIQ
technology

ACCURATE. RELIABLE.
HIGH - PERFORMANCE SECURITY
SCREENING

KEY FEATUTRES

1. Accurate Detection of magnetic, non-magnetic and mixed-alloy metal weapons
2. Wide range of threat detection from guns to ½cutter blade
3. High Sensitivity and Throughput
4. Exceptional Immunity to external interferences
5. High precision bidirectional counter
6. Random alarm capability programmable from 0% to 20%
7. Powered by safe low voltage DC
8. Standard Interfaces: Infrared
9. Other available interfaces: Ethernet, USB(Optional)
10. 5 security level presets
11. 30 locations quick settings
12. 100 working frequency bands option

The Inspecta 45Z, a 45-Zone Walk-Through Metal Detector, can detect a wide range of threat items made from magnetic, non-magnetic, and mixed-alloy metals. It provides quick, accurate scanning of the entire body from shoe level to the upper frame while meeting international security standards. It features a “height-on-person” LED display that clearly indicates the exact location of detected objects. The system can distinguish between significant metal threats, such as weapons, and harmless personal items. Its high-sensitivity design also includes a unique flying-object detection feature, accurately alarming on metallic items thrown through the detector.

STANDARD FEATURES:

• Quality

Continuous self-diagnostic system
Proven reliability
No periodic re-calibration and preventive maintenance required
No scheduled maintenance
Fully digital design

• CENTRAL CONTROL UNIT

Ergonomic and robust design
High visibility 7inch LCD display and programming keyboard
VISUAL SIGNALS: Multi-zone display bar for " height on person" localization
2 LED light bars on front door panels
Green metering signals proportional to the mass of the detected target
AUDIO SIGNALS: 16 selectable continuous and pulsed tones

• ALARM SIGNALLING

20 selectable sound intensities ranging from 0 to 87 dbA at 1m

• TYPE OF SIGNALLING

VISUAL ZONE INDICATION 45 zones :

• PROGRAMMING

Remote via RJ45, Infrared Remote Control Unit or Ethernet
10/100 base T
Interface, USB port(optional)
SECURITY LEVEL International Standard (IS) command
Local by Control Unit LCD display and keyboard
Programming access protected by user and super-user passwords

• OPERATIONAL FEATURES

Quick reset time as short as 0.2 seconds for high throughput
Very high detection speed (up to 15 m/sec.)

• Environmental Data

Power Supply: AC100V~240V 50/60Hz
Power Consumption: 15W
Operating temperature: -20°C~+55°C
Storage temperature: -20°C to +60° C
Relative humidity: 20 to 95% (without condensation)

• Intelligent Program

Self-diagnostic procedures
Automatically adapt to the working environment
Auto-scan environmental interference at site
Shock proof to avoid false alarm
Intelligent traffic and alarm counters that calculate traffic flow and resultant alarms
Tamper-Proof: operate program is protected by password
Embedded battery back-up: 4/8/10 hours in optional

• Size & Weight

Net Weight: 70kgs
Gross Weight: 90kg
Outer frame: 2210mm (h) x 880mm (w) X 600mm (d)
Inner frame: 2010mm (h) X 720mm (w) X 600mm (d)
Packing in one box for each unit

• Sensitivity Level

Sensitivity adjustable from Level 0 to 4090
High: Can detect a coin
Low: Detect big metal articles such as: knife, gun, and copper, aluminums, zinc (more than 150g), ignoring metal in belt button, shoes

• Mix distance between two Walk-thru

0.3 meters at low sensitivity, 0.5 meters at high sensitivity

• Adjustable operating frequencies

Eliminate the potential effects from X-ray units, radios and other electrical interference sources
Compliant with the applicable Standards for Walk-Through Metal Detectors
Compliant with the applicable electromagnetic Standards on Human Exposure and Pacemaker Safety
Compliant with applicable International Standards for electrical safety and EMC
Harmless to magnetic media (CD, tapes, etc.)

• Warranty

2 Years Warranty and 10 Years Parts Supply Availability as per our General Conditions of sales, Delivery & Warranty"

• Comprehensive support

Averguard provides full operational & technical training support
phone technical support
in-house and on-site repair/services
standard and custom training

• Optional Accessories

Metal Detector Divesting Table:
For management of personal metal belongings Standard size: 1000(L)*236(W)*800(H)mm
Metal Detector Feet Wheels:
For easy moving without disassembly
Different model has different matched type

• Breakthrough Value

Superior average reliability slashes total cost of ownership
The overall system is characterized by sturdy, reliable electronic and mechanical construction, and ease of installation
No periodic re-calibration and preventive maintenance required (Accurate Detection)
Built-in self-diagnostic program, power-on self-check, modular structure, multi-language program selection, system automatic wake-up
DSP highly integrated digital processing technology, more stable performance, more convenient for after-sales service
Up to 300 levels of sensitivity calibration
7inch LCD display, self-diagnosis fault and display
Stable performance, 45 zones. (60/90 zones accept customization)

• APPLICATIONS

Airports, Customs, Stations, Correctional Facilities
Law Enforcement, Government Building
Schools, Shopping Malls, Hotels, Companies
Nuclear Facilities (Security)
Industries (Security)
Public Events, Data Processing Centers

Note: The product images shown are for illustration only. Actual design may vary slightly depending on manufacturing updates

BREAKTHROUGH VALUE:

Power Supply Adapter
